

JAMES B ASHWORTH

Senior, Advanced Analytics

An enterprising finance leader with a penchant for accelerating business growth, I am a business operations expert focused on optimizing the customer experience.

As my executive data analytics career continues to evolve, I remain steadfast in my belief that collaboration is the key to business success. On a daily basis, I am committed to building positive relationships with my customers, analytics' peers, C-level clients, and vendors. It is through these bonds that deals are closed and relationships are strengthened. My track record includes a strong talent for building a loyal base of customers and delivering top-level performance—these skills allow me to support sustainable growth so that a company can fully thrive.
